Holland Basham Architects

Project Architect

Holland Basham Architects is seeking production architects with 3-10 years of experience in architectural design, contract documents and specifications relating to a wide variety of project types and sizes. This position requires coordinating the work of both the architectural and engineering team(s) through SD, DD, CD and the construction phases of a project. This requires managing internal coordination meetings, client meetings and reviews with various governing agencies for code compliance.

Qualifications

- BS/BA Degree in Architecture from an accredited college or university required
- Registered or on a solid path to registration
- Previous experience in an architectural or architectural/engineering firm
- Software proficiency in use of Microsoft Office applications.
- Proficient with AutoCAD 2014+ (Current versions preferred)
- Significant Revit experience (Version 2017 preferred)
- Experience in commercial architecture including corporate, retail, mixed-use complexes, institutional, educational, and multi-family residential facilities

We offer competitive salaries and a comprehensive Benefit package.

Years of Experience: 3-5
