

RTA Architects

Architects and Architectural Interns

Welcome to RTA Architects, a team of seasoned leaders, visionary architects, and a dedicated support staff. We are seeking Architects and Architectural Interns who are looking to expand their craft and to profoundly impact many of RTA's greatest Colorado projects such as the new Pikes Peak Summit Complex, 21st century educational projects, and cutting-edge healthcare designs in Colorado and internationally.

From our loft offices in beautiful downtown Colorado Springs, our culture is open, collegial, and uses the latest in collaborative technology. You'll interact with many teammates and will find yourself engaged by our leadership team who truly values mentorship and helping architects grow their careers. We are proud of our intensely client-focused work ethic and the fact that the majority of work we do is repeat business.

If you have your Bachelor's or Master's Degree of Architecture, a current Architectural License (or near completion of ARE), superior communication skills, and attention to detail, apply today!

We are an equal-opportunity employer and provide a full benefits package and competitive pay (DOE).

Architect - An experienced (3+ years) licensed professional who can lead a project, develop a set of tasks to accomplish the project, coordinate and monitor the work involved in the tasks, and deliver a final product on time and within prescribed budget. Directly responsible for completing project related tasks based on the project schedule, including managing designated staff as agreed upon with the Project Manager and Principal in charge. Provides constant communication with the Owner, Project Manager, Client and the Principal in charge relative to revisions in schedules, concept, and budget for assigned project. Coordinates technical design aspects of the project. Responsible to plan, organize, and control the activities of the project in concert with the Project Manager as well as to achieve successful completion of all projects assigned while operating within the guidelines established and within the policies and procedures of the firm.

Architectural Intern - An experienced professional (3+ years) who is working towards their architectural license to perform project assignments including design, detailing, and other office tasks as directed by Principal in Charge, Project Manager, or Project Architect/Job Captain, depending upon the scope of the project. Assist the Project Team with all phases of a project. Depending upon the type of project may be assigned the responsibilities of the Project Manager or Job Captain. Perform any task as requested.

Years of Experience: 3-5
