

Project Architect Omaha or Lincoln

Schemmer

About Us

Collaborative. Knowledgeable. Driven. Schemmer is a full-service architectural, engineering and construction field services firm providing responsible solutions for complex design and construction-related challenges with a keen focus on quality and client satisfaction.

We believe in a creative, collaborative culture with highly-engaged staff that love what they do. Our diverse and talented professionals work together to create effective, goal-driven solutions. Providing a professional work environment with access to the latest technology all while maintaining a culture that rewards excellence is what makes Schemmer a great place to work. Professional growth and leadership opportunities are available for all staff who seek to advance their career and be a significant contributor to the overall success of the firm.

Project Variety

When you work for us, you won't be stuck in a rut of producing designs for one type of project. At Schemmer, you will have the opportunity to stretch your imagination to the limit and work on multiple project types. We work on projects large and small, from studies to construction documents, for public and private sectors, of different building types and different building systems.

Are you a motivated, detail oriented and client focused individual? This position offers great individual growth potential while giving you the opportunity to design and prepare construction documents utilizing the latest technology.

The successful candidate will be responsible for production and design of industrial and commercial projects, working closely with Market Leader. View our gallery of projects at www.schemmer.com. This position also will have regular client contact. You can work in either our Omaha or Lincoln office.
